Image Composite (existing metaphor) Animation Composite	Animation Composite
Pixel	Animation channel, or animation curve, or Degree of Freedom (DOF), or a floating point number changing over time.
Layer	An animation, a collection of animation channels over time, a Skill.
Transparency	An animation in a layer can be sparse; it does not need to "touch" every channel. Empty animation channels correspond to transparent pixels.
Blend mode	Applies to animation data as well, determines the type and percentage contribution of each layer.
